Chateau de Bagatelle

On a wager with Marie Antoinette, in 1780, the Comte d'Artois (later Charles X, the second King of the Restoration), built an entrancing little chateau, with its charming gardens in the incredibly brief time of 64 days. The outlay was three million francs.

"C'est magnifique!", exclaimed Marie Antoinette, on catching her first glimpse of the beauty spot which became an enduring reminder of her wager. "Mais, non, c'est une bagatelle" answered the gallant Comte d'Artois. So in this romantic manner the name "Bagatelle" originated.

The gardens of the Chateau de Bagatelle, near Paris, were used as testing grounds to determine the value of new roses sent from all parts of the world, a most interesting place! So is the Bagatelle Nursery with its specimen evergreens, ornamental trees, Rhododendrons and new Azaleas. A cordial welcome awaits you.

Conditions of Sale

NET PRICES

Prices are F.O.B. our nursery based on our selection; anyone selecting and marking material a 10% additional charge will be added.

Castanea mollissima*Chinese Chestnut*

A tree which has proven so far to be blight-resistant in America.

Produces a medium size, good quality, well flavored nut.

Makes a good shade tree as well as ornamental with its many burrs.

We have some of the original trees which were first brought to America in 1924.

The stock we offer here is a product from those original trees.

Trees offered are ten years old, three times transplanted, and pruned making them perfect trees now producing nuts.
